

GOLDEN STAR

Gender Equality

Golden Star supports Sustainable Development Goal 5 by promoting gender equality and empowering women and girls.

SDG 5 Achieve gender equality and empower all women and girls

In the traditionally male-dominated mining industry, we employ a number of females throughout our business. Of our direct employees, 13% are female staff, with 292 women employed in our mining and oil palm businesses. Not only do we employ women throughout our workforce, in management / technical roles, women represent over 9% of senior staff demonstrating our commitment to positive interventions in employment opportunity for women.

To further strengthen support systems for women the Golden Star Ladies Club was inaugurated in 2010 to empower members to be advocates in the communities in which they live, and to provide support, education and forums for communication and uniting our women.
